

## Concept Quiz Answer Key

### Vocabulary Match

1.C Solution

2.A Substance

3.E Dissolve

4.D Physical Property

5.B Mixture

### Identification

1.Solution

2.Mixture

3.Mixture

4. Answers may vary. Take the mixture and pour it through a filter. This will separate the pebbles from the salt and water. Next, heat

the mixture. When the water and salt begin to boil, the water will evaporate. Eventually, you will be left with the salt.
