

Transformation of Electric Energy

Picture Vocabulary

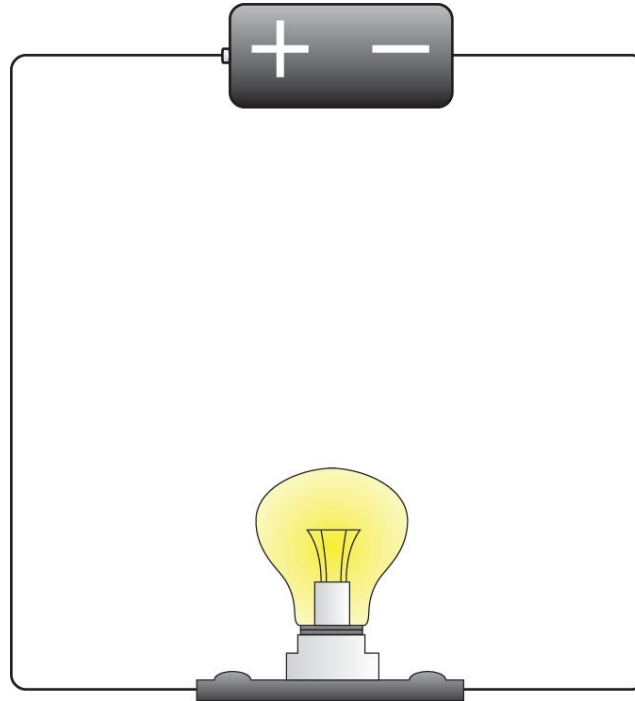

5.P 10.4 Transformation of Electric Energy

Energy

What is needed to do work or cause change

Energy Transformation

The change of energy from one form to another

Light Energy

Electromagnetic energy that can be sensed by the eye

Thermal/Heat Energy

Energy that causes a change in temperature between materials

Sound Energy

Mechanical energy that travels as waves through the air or water and vibrates the ear drum upon contact

Electrical Energy

Energy resulting from the flow of charged particles

Mechanical Energy

Energy produced by a machine or moving part

Motion

Describes change in an object's position with respect to time and in comparison to other objects
